Who we are

IASC – International Arbitration Seminars and Courses is an association of young practitioners that provides trainings aimed at fostering a deeper understanding of arbitration as a peaceful and effective means of dispute resolution.

GoArb

GoArb is the main program organized by IASC since 2016. It is an introductory course based on the analysis of a mock case, through seminars, workshops and networking events. In 2024, we will organise the first edition in Lima, with the collaboration of **Pontificia Universidad Católica del Perú**.

GoArb Lima 2026

This year's edition will offer a three-day intensive course on investment arbitration, built around the analysis of a practical case study. The program is designed to provide participants with a solid grounding in the theoretical framework and practical dynamics of international investment arbitration proceedings.
